

MAS MANAGEMENT SYSTEMS

# TRAINING WORKSHOPS

---

OCTOBER 2020 - MAY 2021

# ABOUT US

MAS Management Systems provides transparent, practical and innovative solutions for your business systems and compliance problems.

We offer a unique blend of lab skills and experience so you can be sure we speak your language.

But perhaps more importantly, we can form teams of people to help solve your unique set of problems. This collaborative approach and ability is what sets us apart from other consultants.

It's no secret that your business needs support to work better and smarter. We'll help you examine and improve your systems, which means that you'll achieve greater efficiency and less pressure on both staff and management.

In addition, we can be right there with you during your NATA assessment to support you and your staff and make the assessment as smooth as possible.

## TRAINING WORKSHOPS

We've developed this range of practical, lab-specific workshops to support your staff training and provide confidence in your results.

Whether we run training specifically for your lab or you're part of a public session, we can help you achieve your goals.

# UPCOMING WORKSHOPS

## MEASUREMENT UNCERTAINTY MADE SIMPLE

March 2021

June 2021

## Writing documents (half day)

March 2021

June 2021

## How to fix problems using your corrective action system (half day)

March 2021

June 2021

# ABOUT OUR TRAINING

Currently our training is being run online. In-house workshops may be run as face-to-face sessions depending on the location of the facility.

All of our workshops are **highly interactive** and are run in **small groups**, ensuring the best outcome for participants.

PLUS we do a **follow up** with each participant a couple of weeks after the course to ensure the knowledge gained during the training is being implemented in the workplace. Participants have all found this extremely valuable as it offers them an opportunity to ask questions.

## IN-HOUSE TRAINING

All of our courses can be run as an in-house session, saving your business time and money.

In-house training ensures that all participants are receiving the same information. In addition, any matters that are considered commercial in confidence can be discussed more openly in an in-house setting.

## HOW TO REGISTER

Registration is simple!

Click on the live link under the course you're interested in. This will take you to a registration page where you can complete your details - you'll receive a confirmation immediately.

We'll be in touch with you prior to the workshop to let you know of any additional course requirements.

For courses that don't have live links, email [info@masmanagementsystems.com.au](mailto:info@masmanagementsystems.com.au) to find out when the dates will be confirmed.

In-house course requests can be emailed to [info@masmanagementsystems.com.au](mailto:info@masmanagementsystems.com.au) or you can phone Maree on 0411 540 709 for a confidential discussion.

## TESTIMONIALS

We always seek feedback on our training and have been delighted to have received only positive comments from past participants:

*"A great opportunity for learning with others - highly interactive extremely useful"*

*"A very instructive day (Lab Manager)"*

*"Thanks Maree for running a very useful workshop that is very relevant at the moment" (Quality Coordinator).*

***We look forward to welcoming you and your colleagues  
at a future workshop!***
